

System Overview

The FeverScan M3000P03 is a dual vision portable thermal imaging camera. As target pass the camera head, thermal and visual images are displayed on the nearby monitor. Target temperature above a predefined value is displayed.

FeverScan M3000P03 is a portable version that maintains the key features of our M3000P series. It has thermal and visual sensors creating a dual head camera. The dual thermal/visual comparison allows operator easier/faster monitoring for target temperature.

Product Facilities

Key Features

- Potable Device system for easy monitoring
- Preset values for abnormal temperatures
- High resolution 160 x 120 FPA.
- Adjustable color palette for temperature range display
- Temperature measurement in same screen
- Customizable high-temperature alarm
- Log file alarm data records
- Adjustable Image brightness and contrast
- Advanced setting available. SD compact memory

Portable Economic Digital

Specifications

Thermal Camera

Lens	FOV: 24° x 18°
Focal Plane Array	Micro-bolometer, 17um pitch 60Hz (NTSC) or 50 Hz (PAL)*
Image Frequency Spectral Range	8 -- 14 µm
Number of Pixels	160 x 120
Sensitivity	0.05°C @ 30°C
Measurement accuracy	±0.5°C
Image output	Video, and digital

Software User Interface

Data Display Visual Alarm	640 x 480 on screen/processing User definable temperature scale and alarm trigger point
Alarm Function	Ignore Mode or Save Alarm Mode Sound/Visual//network alarm (saves images to hard drive and creates log file for easy retrieval and review)

Visual Camera 3MP high resolution

* Any image frequency above 9 Hz requires an export license.

WARNING AND CONDITIONS OF USE OF THIS PRODUCT

1. This product is not a medical device.
2. This product is intended for general public use.
3. This product is marketed only to the general public for general, non-medical purposes, such as use in construction and other industrial applications only.
4. These products are not intended for use in the diagnosis of disease or other conditions or in the cure, mitigation, treatment, or prevention of disease, when marketed for these non-medical applications
